

WELCOME!

Welcome to our office. This philosophy of our practice is based on the concept of Preventive Dentistry. Our goal is to preserve your natural teeth for life and maintain your oral health at an optimum level.

Before we can see you, we will need previous dental records transferred to our office. Also, I am enclosing health, patient, insurance and financial information sheets with a self addressed envelope for you to fill out. Please completely fill out these sheets as soon as possible and return them to our office. Our office will also need the copy of your insurance cards, front and back, if you have insurance. Once we receive these items, we will give you a call to schedule an initial exam.

It is our desire to provide your dental health needs as thoroughly and comfortably as possible. Our initial examination appointment is used to obtain a complete dental history and clinical examination along with necessary x-rays. These include a full mouth series of x-rays or a panorex.

It is our policy of our staff to be constantly involved in Continuing Dental Education in order to best serve the needs of our patients. We look forward to seeing you and thank you for your cooperation. If you have any questions or concerns, please don't hesitate to call.

Cordially,

The Staff of Dr. McGarry
